Hermon School Department

School District Commitment to Learning Results

The Hermon School Department hereby adopts Maine's system of Learning Results. The Learning Results system is intended to serve as a foundation for education reform and to promote and provide assessment of student learning, accountability and equity. The Hermon School Committee recognizes that the legislative intent of the Learning Results system is to provide children with schools that reflect high expectations.

The School Committee understands that implementation of the Learning Results system and the mandate to provide all students with equitable opportunities to meet the content standards of the system of Learning Results have broad implications for the School Department, including curriculum, budget, professional development, student assessment, professional evaluation, and graduation requirements. Therefore, the School Committee is committed to examining its policies and school system practices to ensure that they are consistent with the intent and goals of the Learning Results system. This will require a concerted and coordinated effort involving the School Committee, the superintendent, administrators, teachers, parents, students and the community.

The School Committee directs the superintendent to develop a plan and timeline for implementing the Learning Results system and any appropriate administrative procedures. The School Committee further directs the superintendent/designee to report to the School Committee on a regular basis on progress toward implementing the Learning Results system.
